Manhattan Irregularly Advances to 137.

BROOKLYN RAPID TRANSIT ACTIVE

Sugar Advances Stendily After as Initial Decline-An Increase in Outside Business Noted as a Payorable Feature-Bank Statement Predictions Hopeful.

NEW YORK, Jan. 17.-The local traction stocks, particularly Manhattan and Brooklyn Rapid Transit, were the firm and active features of the early dealings. Manhattan opened 1/2 higher anad gained an additional 1/2 per cent, but it reacted later. In the early afternoon it advanced again to 137.

The price of Sugar declined 1/4 per cent in a few transactions, but later advanced steadily. Glucose gained %. The increase in outside commission business was a feature of the morning and contributed most of the prevalent

bullish feeling. London Market Heavy.

The London market was heavy in all quarters, and American stocks were

imparting steadiness to the trading.

The bond market was steady, but with usual small dealings. In Government bonds there was no change.

ing, on the outlook for a good bank statement tomorrow, and the continued ease

Sufferers from this horrible malady pearly always inherit it — not necessarily from the parents, but may be from some remote ancestor, for Cancer often runs through several generations. This deadly poison may lay dormant in the blood for years, or until you reach middle life, then the first little sore or ulcer makes its appearance—or a swollen gland in the breast, or some other part of the body, gives the first warning.

To cure Cancer thoroughly and perma-

nently all the poisonous virus must be eliminated from the blood—every vestage of it driven out. This S. S. S. does, and is the only medicine that can reach deepseated, obstinate blood troubles like this When all the poison has been forced out of the system the Cancer heals, and th

disease never returns.

Cancer begins often in a small way, as the following letter from Mrs. Shirer shows:
A small pimple came on my jaw about an inch
below the ear on the left side of my face. It gave

me no pain or inconven-efnce, and I should have forgotten about it had it not begun to inflame and lich; it would bleed a

i wonderful effect from the very beginning; the sore began to ad after taking a few bottles disappeared y. This was two years ago; there are still no of the Cancer, and my general heatth ues good.—Mus. R. entirely and the advance is not to be insidered, conservatively, anything mor than a legitimate recovery from the star leclines of last week

The outlook is that the market will con me narrow and rather uninteresting to ome days at least. The good feature he situation is that business become all on the declines, which seems to indi ate that there is little stock for salaround the present level of prices. Or ensues as soon as the cliques pause in heir periodical baying movements, which quite as clear an indication that the ablic does not want to buy stock at pre-

The insiders seen to have the key to the immediate situation, and they, per hape, are waiting for real conditions to develop before developing the Stock Market in harmony with them.

Northern Scentities Gossip. There is much uncertainty over the Northern Securities matter, and while the big people all profess to believe that the Morgan-Hill coteric will win in the end, there must, of course, be some uneasiness until the event has been accomplished.

One of the despatches from Minnesota says that sentiment in the State is chang-ing and that the railway cause is gaining friends rapidly among the farming people especially. This, if it is a fact, may have especially. This, if it is a fact, may have much to do with the final outcome of the business. If Governor Van Saut made his attack on the combination because he believed it would be a popular move in his State, as seems not unlikely, and if he now soon discovers that he has made a mistake, his zeal may possibly go into eclipse at any time.

Recovery of Delaware and Hudson. The coal securities were among the strong features all the morning. Delashown at declines of from 1/8 to 1/2 point.

The dealings here for foreign account were unimportant.

It was generally expected that tomorrow's bank statement would make a very strong showing and the views in this respect were to some extent effective in ware and Hudson recovered three points

strong, in harmony with the condition of the anthracite trade. More Manhattan-Central Rumors. Manhattan was strong with an advance before 1 o'clock to 137 and better. The selling of the stock recently by the speculative fraternity has been rather too precipitate perhaps, and a story published this morning, by one of the important New York dailies, to the effect that the New York Central-Manhattan combian-

New York Central-Manhattan combination has not been given up, seemed to frighten these people. The story, to the extent of two columns, is that the new stock issue proposed by the Central directors is in reality for the purpose of getting money to purchase a controlling interest in the Manhattan Company.

It is impossible to say that the statement is not based on inside and truthful information, but it has against it the fact that during the past two years half a dozen similar stories have been printed on what seemed to be good authority, and all of them have proven to be without any all of them have proven to be without any
